

#PublicHealthHeroes

RECOGNIZING PUBLIC HEALTH HEROES WORKING TIRELESSLY
BEHIND THE SCENES TO KEEP COMMUNITIES HEALTHY AND SAFE

DANIELLE HACHBORN

EPIDEMIOLOGIST

HOW I'M HELPING TO KEEP COMMUNITIES SAFE RIGHT NOW

By being a storyteller: Sharing COVID-19 epidemiological data in reports and dashboards to keep public health, the government, media and my community informed

MY MESSAGE TO THE PUBLIC DURING THESE CHALLENGING TIMES

*"We are all
#PublicHealthHeroes
when we put the needs
of our community ahead
of ourselves!"*

MY ROLE IN PUBLIC HEALTH

What I'm championing every day to keep communities healthy:

Surveillance and reporting of infectious diseases and immunizations in Simcoe Muskoka; simulations and projections of the COVID-19 pandemic trajectory; data management of case investigations and outbreaks; working alongside other epidemiologists, analysts and case investigators to ensure data becomes information!

What I would like to see for the future of public health:

A more robust provincial database for infectious diseases – so we can provide the right information, to the right people, at the right time!
