

#PublicHealthHeroes

Infection Prevention and Control (IPAC) Team

HOW WE ARE HELPING TO KEEP COMMUNITIES SAFE RIGHT NOW

We follow-up with all positive cases and their contacts, provide guidance and training to staff from health care facilities, and promote the dissemination of up to date IPAC recommendations to prevent the spread of COVID-19 in our community. We provide training and support in infectious diseases to staff. We provide data to the Ministry continuously

OUR MESSAGE TO THE PUBLIC DURING THESE CHALLENGING TIMES

Stay home/Stay Safe, as controlling the spread of Covid-19 to our loved ones starts with each and everyone of you!

EASTERN ONTARIO HEALTH UNIT

OUR ROLE IN PUBLIC HEALTH

What we champion every day to keep communities healthy:

We conduct investigation and management of infectious diseases cases and of outbreaks, provide training on infection control measures such as proper hand hygiene, use of PPE. We support the implementation of Infection Prevention and Control initiatives to achieve best practice in healthcare settings to keep our population safe. We respond to client requests and inquiries

What we would like to see for the future of public health:

More recognition for the wide array of issues that public health deals with on a daily basis.
